3D printing – realize your imagination

Inspire the Creativity, Enrich your Life

About Sunny3D

Based in Zhongshan City, China, we develop and produce high quality **3D printing materials**, which are safe and stable. We also provide multiple services for 3D printing.

Our goal is to be a professional material supplier for 3D printing and also the **leadership** in this field.

3D For Home

Through our safe, non-toxic and durable material, with reasonable cost, we want to popularize 3D printing into home. Everyone can easily reach it and using in everyday life.

Our Products

3D Printing Material #1

TPE 6A (Soft Material)

Raw Material : TPE

Diameter : 3.0mm, 1.75mm

Hardness : 95A

Standard Color : White, Black, Red, Blue, Green, Orange.

Special Color : Gold, Silver, Wood...,

Also accept customized color production.

Features :

1. Strong physical performance, the 3D printing product can be used directly. It's hard to be broken.
2. Environmentally friendly and non-toxic materials, passed ROHS, REACH safety standard.

3D Printing Material #2

TPE 8D (Hard Material)

Raw Material : TPE

Diameter : 3.0mm, 1.75mm

Hardness : 95A

Standard Color : White, Black, Red, Blue, Green, Orange.

Special Color : Gold, Silver, Wood...,

Also accept customized color production.

Features :

1. Strong physical performance, the 3D printing product can be used directly. It's hard to be broken.
2. Environmentally friendly and non-toxic materials, passed ROHS, REACH safety standard.

3D Printing Material #3

PLA-1

Raw Material : PLA

Diameter : 3.0mm, 1.75mm

Hardness : 80D

Standard Color : White, Black, Red, Blue, Green, Orange.

Special Color : Gold, Silver, Wood...,

Also accept customized color production.

Features :

1. Change the physical properties, increase the mechanical properties of PLA, and extend the degradation time.
2. Environmentally friendly and non-toxic materials, passed ROHS, REACH safety standard.
